MOBILE AP: BUSINESS BILL PAY ON-THE-GO

Remove Process Bottlenecks

Gone are the days of bills piling up while you're away from the office. For payables that require your attention, you can now take care of it directly from your mobile device. Stop missing payments because you're out of the office, and keep your workflow uninterrupted no matter where your business may take you.

Maintain Visibility & Control

With data synced automatically across all devices and desktop accounts in real-time, your users will have access to up-to-date bill details as they happen. Our mobile app also includes the same role-based permissions as our desktop software, so access and controls are supported even for mobile users.
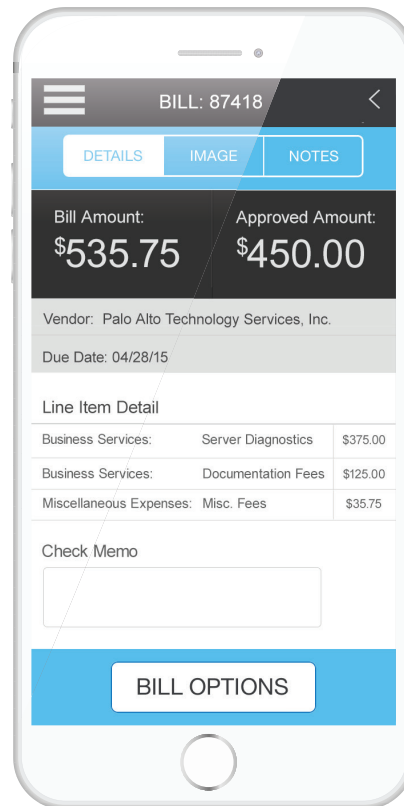

Upload From Anywhere

Need to process a bill from the road? No problem. Use your device camera to shoot and upload bill photos directly into your account. For ultimate convenience, you can even send to Circulus for data entry services.

Pay Bills From Anywhere

With so many business owners and managers working remotely or in the field, our mobile application provides the ability to maintain your payables without missing a beat. Review, approve and pay your bills directly from your device, with all data being instantly synced to your Circulus desktop account.

Features Include:

- Review, approve and pay bills
- Take bill photos directly from your device
- Send bill images to Circulus for data entry
- Upload bills from your device image library
- Access your bill activity calendar
- Add bill comments and notes
- Available for iOS and Android
